WEEVIL WILL INVADE ALL SOUTH CAROLINA

(Continued from page 2)

help yourselves to enjoy prosperity once more. How?

"1. Begin at once to destroy the cotton stalks by plowing them under completely, cutting and burning them or grazing them closely with cattle just as soon as you can get the cotton picked. Plowing them under with a two horse plow is the best, because it destroys weevils, prevents them from multiplying until frost, adds the stalks as a fertilizer to the soil, forces the weevil to migrate or to survive a longer period of starvation. Plowing under destroys grass and weeds before the seed ripens, prepares the soil in the fall, makes it produce better and is easier to cultivate. It's all gain, if you do it promptly and well. Will you do it?"

"2. Reduce your crop to six or eight acres to the plow and make the rows one foot wider than you expect the cotton to grow in height.

"3. Prepare a good well pulverized seed bed and plant as early as season will permit.

"4. Plant pure seed of early varieties like Triumph, Cleveland, Toole, King and Simpkin.

"5. Fertilize a little heavier and put part of the fertilizer in with the seed to start the crop quickly. If only 200 pounds of fertilizer is used per acre, apply all with the seed.

"6. Keep cotton off damp rich land that makes too much weed, as moisture, shade and tender growth is the weevil's ideal place.

"7. Pick the weevils out of the buds of the plants a week before squares begin to form.

"8. Pick up and burn the infested squares the same week that the first blooms occur.

"9. Cultivate shallow and once a week until August or later.

"10. Successful cotton culture is now a matter of the man, his intelligence, determination and ability to apply his efforts at the time which will accomplish the greatest results.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents

SAYS DRINK WATER IF YOU WISH TO GROW FAT AND PLUMP

THIN MEN AND WOMEN

Do You Want to Get Fat and Be Strong?

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh cream," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract properly assimilates the food you eat. Drink a glass of cold water four or five times a day and take the following preparation known to reliable druggists almost everywhere, which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This preparation is called Tonoline, and much remarkable testimony is given as to its successful use in flesh building. Tonoline which comes in the form of a small non-injurious tablet, taken at meals and mixed with the digestive food, tends to prepare fat, flesh and muscle building elements so that the blood can readily accept and carry them to the starved portion of the body. You can readily picture the transformation that additional and previously lacking flesh making material should bring to your cheeks, filling out hollows about your neck, shoulders and bust disappearing, and your taking on from 15 to 30 pounds of solid healthy flesh. Tonoline is harmless, inexpensive, efficient. Your druggist has it and is authorized to refund your money if weight increase is not obtained as per the guarantee found in each large package.

Caution: Tonoline is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.—Adv.

WHEN THE WAR IS OVER.

It is only natural that, at times such as these, and amidst the heat of war, there should be much talk of a fierce crusade, even when peace arrives, against all kinds of German interests. I need scarcely say, however, that in common with the United States, the British are far too common sense and practicable a people to carry what might be termed personal animosity into business life. What, however, is going to tell against Germany in the future is not bitter hate on the part of her recent enemies, but something much more serious and lasting. This is profound distrust, and it is something which can only be dispelled by Germany herself.

RUB-MY-TISM

Will cure Rheumatism, Neuralgia, Headaches, Cramps, Colic Sprains, Bruises, Cuts, Burns, Old Sores, Tetter, Ring-Worm, Eczema, etc. Antiseptic Anodyne, used internally or externally. 25c

As sober and conservative people see it, the question at issue still is whether Germany will yet work out her own regeneration. That is for the German people to decide. For many years the German people have been the welcome guests of every civilized part of the world, and not least of Great Britain. What use was made of that hospitality and of the trust which it represented, the present war goes to show. If Germany desires to make her chief claim to power in the future her capacity for promoting the requirements of the outside world, then it is up to Germany to show that her power in quell the power of Prussianism and that direction is sufficient.—London Correspondent in New York Evening Post.

SAYS A GLASS OF HOT WATER EVERY MORNING BEFORE BREAKFAST WILL TAKE OFF FAT IF YOU GET MORE FRESH AIR.

Be Moderate in Your Diet and Reduce Your Weight with Tassco.

Lack of fresh air weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off by increasing the oxygen-carrying power of the blood, a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from your druggist a box of tassco, take a glass of hot water every morning before breakfast then take tassco after each meal and at bedtime.

Weigh yourself every few days and keep up the treatment until you are down to normal. Tassco is absolutely harmless, is pleasant to take, helps the digestion and is designed to increase the oxygen power of the blood.

Even a few days' treatment should show a noticeable reduction in weight. There is nothing better for obesity.—Adv.
